OBJECTIVE

Python Full Stack Developer with hands-on experience in developing scalable web applications using Python, Javascript, React, Firebase, and Power BI. Passionate about building secure, user-friendly applications and solving real-world problems through software development.

WORK EXPERIENCE

Internship – Social Prachar (Hyderabad) | Exposure: Full Stack Development

DEC 2025 – MAR 2026

Project: Cardio Care – Hospital Management & Analytics System :

Tech Stack: HTML, CSS, JavaScript, Bootstrap, Chart.js, Firebase, Razorpay, Python, Power BI.

- Developed a web-based hospital management system centralizing patient, doctor, visit, and billing data.
- Built role-based dashboards with real-time analytics and visualizations using Chart.js.
- Developed responsive user interfaces using HTML, CSS, Bootstrap and Javascript.
- Integrated Firebase for real-time CRUD operations and Razorpay for secure online payments; deployed on Netlify
- **Live link:** <https://healthplusvajraai.netlify.app/>

Project: LumiSkin – AI Skin Analysis Platform:

Tech Stack: HTML, CSS, JavaScript, Bootstrap, Chart.js, Firebase, Razorpay, Python (CNN-MobileNetV2, Logistic Regression, Naive Bayes, NLP-TF-IDF).

- Developed an AI-powered skin analysis platform for detecting skin conditions.
- Implemented CNN (MobileNetV2), Logistic Regression, Naive Bayes and NLP (TF-IDF) models to generate personalized skin care recommendations.
- Built the application using HTML, CSS, JavaScript, Firebase, and deployed it using GitHub and Vercel.
- **Live link:** <https://lumi-skin-ai-frontend.vercel.app/>

PROJECTS

Project : IoT based Smart Kitchen with Enhanced and Automation safety Measures :

- Designed and developed an IoT-based Smart Kitchen Monitoring System using NodeMCU, RFID, WSN, Cloud Computing, and Networking Technologies.
- Enabled real-time monitoring and automation of kitchen appliances to improve operational efficiency and reduce manual intervention.
- Implemented sensor-based monitoring and intelligent alert mechanisms to detect potential hazards and enhance kitchen safety.
- Optimized energy utilization through automated device control and cloud-based monitoring for a smarter and more secure kitchen environment.

SKILLS

TECHNICAL :

- Programming Languages: Python | Javascript | C | R | SQL.
- Web Technologies: Html5 | Css3 | React.js | Bootstrap.
- Backend: Python | Node.js.
- Database: Firebase | SQL.
- Tools & Technologies: Git | Github | VS Code | chart.js.
- Computer Skills: Microsoft Word | Excel | PowerPoint.

PROFESSIONAL :

- Proficient communication and Teamwork skills.
- Strong work ethic and self-motivation.
- Work well with diverse groups of people, in teams and one-on-one.
- Decision Making and Adaptability.
- Managing multiple responsibilities and meeting deadlines in fast-paced, high-pressure environments.

EDUCATION

G. Pullaiah College of Engineering and Technology <i>Bachelor of Technology in Electronics and Communication Engineering – 6.5/10 CGPA</i>	2021- 2025
Narayana Junior College <i>Intermediate - 8.1/10</i>	2019-2021
Ravindra Vidya Nikethan High School <i>SSC - 8.3/10 CGPA</i>	2018-2019

PROFILES

- **Github :** <https://github.com/RamSasmith>

ACHEIVEMENTS | INTERNSHIPS

- **Certifications :** MATLAB Onramp | NPTEL in IoT, Entrepreneurship.
- **Internship:** Full Stack Developer Intern | SocialPrachar | DEC 2025 – Mar 2026.
- **Course:** Full Stack Development (Python) | SocialPrachar | Sep 2025 – Mar 2026
- **Virtual Internships:** Completed internships in Uipath RPA Developer | Alteryx Data Analytics Process Automation | Blue Prism intelligent Automation virtal Internship | Celonis Mining Virtual Through AICTE.
